FRESH / COOLED SEMEN BREEDING AGREEMENT

Texas • Stallion Service • Live Foal Guarantee

Agreement Date: _____ Breeding Season: _____

Stallion: _____ Registration No.: _____

Mare: _____ Registration No.: _____

Mare Owner (legal name): _____

Billing Address: _____

Email: _____ Phone: _____

1. PARTIES AND PURPOSE

This Agreement is between RGV EQUINE SERVICES LLC and the person or entity signing as Mare Owner (the "Owner"). The Facility arranges access to fresh or cooled semen from the stallion named above for use only with the mare named above. The Facility represents that it is authorized to provide the breeding services described here. This Agreement does not transfer ownership of the semen.

2. PRICE AND PAYMENT

Stallion service fee: $_____, including a nonrefundable $200 booking/farm fee. The full stallion service fee and applicable shipping charges must be paid before semen is released. Any other charges must be approved or arise under this Agreement. The Facility does not extend a line of credit. On-site veterinary and boarding services, if requested, are billed separately and due within 30 days of invoice. Overdue undisputed amounts may accrue a late charge of 1.5% per month or the maximum allowed by applicable law, whichever is less, after the due date. Reasonable collection costs may be recovered only to the extent allowed by law.

3. FRESH / COOLED SEMEN SHIPPING

Published charges (subject to written confirmation before booking): overnight FedEx shipment $350; local pickup $150; same-day air shipment $450. Fresh/cooled semen is shipped in an appropriate insulated container. A refundable $350 container deposit may apply. The Owner must return any reusable container and its parts within 5 calendar days after delivery, following the provided instructions. Documented loss, damage, or late return costs may be deducted from the deposit with an itemized accounting. Shipping and pickup fees are charged separately for each request and are not included in the stallion service fee.

4. LIVE FOAL GUARANTEE; TWO-YEAR TERM

The stallion service fee includes a Live Foal Guarantee for the mare named in this Agreement. The Owner may request fresh or cooled semen for that mare as reasonably needed during the breeding season in which this Agreement is signed and the immediately following breeding season, without paying an additional stallion service fee. All requests are subject to semen availability and the Facility's regular collection schedule. Shipping, pickup, veterinary services, and all other applicable charges will be billed separately. Any repeat-breeding rights under this guarantee expire automatically on July 31 of the calendar year immediately following the year this Agreement is signed, whether or not a live foal has been produced. No extension into a third breeding season, refund, or additional breeding privilege will be provided unless both parties agree in a separate writing signed by both parties.

5. SEMEN USE, HANDLING, AND DELIVERY

Fresh/cooled semen may be used only to breed the named mare. It may not be sold, shared, transferred, stored for future breeding, or used for another mare or embryo program without prior written approval. The Owner is responsible for arranging a qualified veterinarian, accurate ovulation timing, and prompt proper handling and insemination after delivery. Semen is time-sensitive; the Facility cannot control delays or handling after transfer to the carrier or recipient. No specific semen quantity, pregnancy result, or delivery time is promised unless confirmed in writing.

6. MARE HEALTH AND VETERINARY CARE

The Owner confirms ownership of or authority to breed the mare and must provide a copy of the mare's registration certificate and relevant reproductive history. The Owner is responsible for veterinary evaluation of breeding suitability and timing. If the mare comes to the Facility, a current negative Coggins test (within 12 months) and reasonably requested health and vaccination records are required. The Owner authorizes routine breeding-related veterinary care requested by the Owner and agrees to pay for it. For emergency care, the Facility will try to contact the Owner first but may authorize reasonably necessary stabilization when delay could threaten animal welfare.

7. LIVE FOAL GUARANTEE LIMITS

For this Agreement, a "live foal" means a foal born alive that stands and nurses without assistance within 24 hours after birth. The Live Foal Guarantee provides repeat access to semen only during the two calendar years described in Section 4; it does not promise conception, a pregnancy, a live foal, or a refund. The Owner must notify the Facility promptly if the mare fails to conceive, loses a pregnancy, or the foal does not meet this definition, and provide reasonable veterinary documentation upon request. All rights expire on the date stated in Section 4.

8. EMBRYO TRANSFER AND MULTIPLE PREGNANCIES

This Agreement permits one breeding privilege for the named mare. The Owner must notify the Facility within 48 hours after any embryo transfer arising from this semen. Additional pregnancies, recipient mares, embryos, or breeding privileges require prior written approval and additional fees agreed in writing. No additional breeder's certificates will be issued without the required authorization and payment.

9. BREEDING REPORTS AND REGISTRATION

The Owner must send the insemination date(s), veterinarian or breeding center details, and pregnancy status to the Facility no later than November 15 of the applicable breeding year, or an earlier deadline required by the relevant registry if communicated in writing. Registry late-reporting fees caused by the Owner's delayed or inaccurate information are the Owner's responsibility. Breeder's certificates and registry reporting remain subject to the applicable breed registry rules and payment of amounts lawfully due.

10. RISK, LIABILITY, AND INSURANCE

The Owner is responsible for insuring the mare, foal, and semen in transit if desired. Each party remains responsible for its own negligence, willful misconduct, and violations of law. To the extent Texas law permits, neither party is liable for indirect or consequential business losses arising from this Agreement. Nothing here waives liability that cannot lawfully be waived. The parties acknowledge that equine activities involve inherent risks; statutory protections apply only when their legal requirements are met.

11. DISPUTES AND TEXAS LAW

Texas law governs this Agreement. Any court action relating to this Agreement shall be filed in a court with proper jurisdiction in Hidalgo County, Texas, to the extent permitted by law. Before filing suit, the parties will make a good-faith effort to resolve the dispute by written notice and 15 calendar days for response. This provision does not prevent urgent court relief when legally available.

12. GENERAL TERMS AND NOTICES

This is the complete agreement and replaces prior discussions about this breeding. Changes must be in writing and signed by both parties. If one provision is unenforceable, the remaining provisions stay effective. Electronic signatures and counterparts are permitted to the extent allowed by law. Notices may be delivered by email with acknowledgment of receipt, personal delivery, certified mail, or recognized overnight courier to the contact details in this Agreement. Neither party may assign breeding rights without written consent.
